National Emphasis Program (NEP) - Falls

CPL 03-00-025

- August 1, 2023 – Date inspections will begin under this NEP
- NEP applies to all industries

Why a NEP on falls #1

- Falls remain the leading cause of fatalities and serious injuries in all industries. Between 2014-2021:
 - Falls to lower level accounted for 13% (5,369) of the 40,531 fatalities in all industries.
 - Nearly 31% (77,782) of the 247,798 inspections OSHA conducted during this period had a fall emphasis.

Why a NEP on falls #2

- Region VI has a Regional Emphasis Program (REP) or Local Emphasis Program (LEP) targeting falls
 - Most of them targeted falls in construction only

NEP Scope #1

- NEP applies to all construction activities
- For General industry/non-construction inspections, this NEP will target the following processes:
 - Roof top mechanical work/maintenance
 - Utility line employee (electrical, cable)
 - Arborist/Tree Trimming
 - Holiday light installation
 - Road sign maintenance/billboard

NEP Scope #2

- Power washing buildings (not connected to painting)
- Gutter cleaning
- Chimney cleaning
- Window cleaning
- Communication Towers

*** Note:**

Establishments within the Temporary Help Services (NAICS 5613) industry should not be automatically included in the targeting list for programmed inspections. Although this industry has been among the top industries with OSHA enforcement activities related to heat, this has primarily occurred where services occurred at a high-hazard host. Therefore, to effectively address heat-illness hazards for Temporary Help Services, where OSHA is conducting an inspection for other purposes, a heat-related inspection shall be opened for all hazardous conditions observed in plain view (such as, for example, temporary employees working in high exposure areas without adequate training, acclimatization or access to cool water, rest, and shade).

Hazards

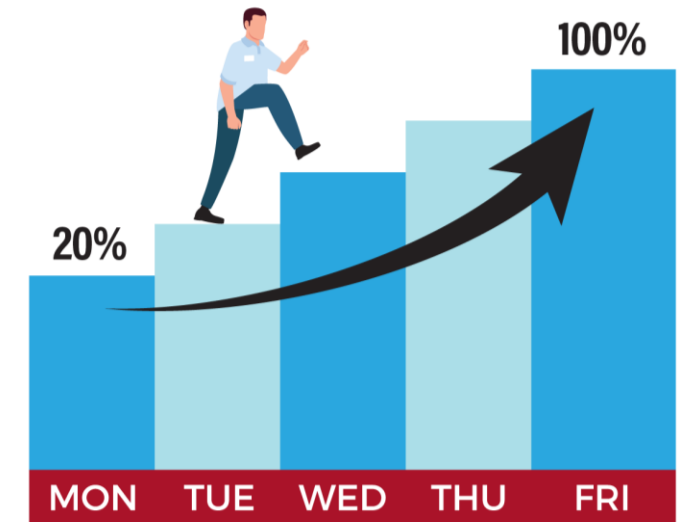

- Heat cramps
- Heat syncope
- Heat rash
- Heat exhaustion
- Heat stroke
